2 Explore Xello Family

On the welcome screen, you will see all children linked to your account. Clicking a child's name will bring you to their profile.

3 Discover Your Child's Interests and Goals

In your child's profile, you will be able to see all the work they've done in Xello. If there's no information in a certain section, your child has not yet started or completed the activity. You can explore each section to learn new information about your child.

4 Access Your Student Demo Account

Try Xello for yourself to get a better understanding of the platform to support your child. On the welcome screen, select your child's grade/school under **My Profile**. Lessons and assignments are catered by grade and school so if you have multiple children, each demo account might look a little different. Once you're in the demo account, you will be able to take assessments, try a lesson, explore careers, and much more.

5 Discuss Your Child's Future Goals and Plan

Xello is a great tool to use to start future planning conversations with your child. Try asking them why they liked a certain career. Were they surprised about their top career suggestions? What different pathways can they take to achieve their goals?

Safe and Secure Environment

We take data protection and privacy very seriously. So does Xello. The program complies with legal requirements for safety and security outlined in the Family Educational Rights and Privacy Act (FERPA). That means advertising is not displayed within Xello, nor is data used for commercial purposes. Xello is also a signatory of the Student Privacy Pledge, requiring them to uphold strict standards for safeguarding student privacy regarding the collection, maintenance, and use of student personal information.

You can learn more about Xello and the student experience by visiting www.xello.world

We hope you're just as excited as we are about this new program and making every student future ready.
