* Excludes State school recognition awards. In prior years school recognition awards were received in addition to the school funding formula and are therefore not reflected in prior year per student amounts. School recognition awards are granted directly to individual schools, based on performance outcomes, to be used solely at the schools' discretion. Typically, schools have used these funds to provide bonuses to staff.

DISTRICT ORGANIZATION AND POLICY

Public schools in Florida operate within the framework of the Florida School Laws, Chapters 1000-1013, Florida Statutes. Charlotte County Public Schools is a body corporate with the powers and duties specified in Florida Statues 1001.30.

The five School Board members are elected for four-year terms at the November general election from five district school board member residence areas, which are approximately equal in population. Each School Board member is charged with representing the entire district.

Responsibility for the administration and management of the schools and for the supervision of instruction in the district is vested in the Superintendent as the Secretary and Executive Officer of the School Board.

BUDGET CALENDAR

General Fund Budget Appropriations

School Budget Allocations

Personnel allocations are based on various staffing requirements (enrollment, program needs, etc.) within the framework of the district staffing formula.

Other expenditure allocations are based on student population and made to schools for all non-personnel costs of Instruction, Pupil Personnel, Media, and School Administration functions. Its distribution to the various functions is left to the schools discretion.

Copy cost allocation is an annual per student allocation to schools intended to help cover copy costs and is added directly to the schools other expenditure budget.

State and district categorical project allocations are restricted allocations that must be expended for specific purposes and are monitored on a project basis by the projects coordinator. Schools receive categorical allocations for textbooks (instructional materials) and Instructional Technology.

Operation of Plant - Allocations for various Operation of Plant expenditures (electricity, water, telephone, etc.) for each school/facility are determined and monitored at the central office level and are reviewed with Principals/directors on an as needed basis.

Custodial Supplies Allocations for each location are under the control of the site administrator. This allocation is based on a combination of facility population and square footage.

District Budget/Location Expense allocations - These allocations are made on a district wide basis but expensed out on an actual location basis; for example substitute teachers and custodial overtime.

District Budget/District Expense allocations -These are district level budget allocation that are district level expenditures not attributable to specific locations. For example, terminal leave pay and the Crossroads Wilderness Contract.

District Department Staff allocations - Departments are not given an allocation as are schools, but prepare conventional budget requests that are subject to the review of the Superintendent.

Debt Service Funds Appropriations

An allocation for each debt service fund is made in the amount required to pay the debt, interest and fees coming due during the budget year.

Capital Projects Funds Appropriations

Capital project funds appropriations are generally categorized into three broad areas:

1) Major construction, remodeling, renovation, and site acquisition projects. These are generally projects with an estimated cost in excess of five hundred thousand dollars (\$500,000) and are identified separately in the project list.

2) Other projects that are of an ongoing nature to the school district, such as floor covering replacement, minor remodeling and renovation, new and replacement equipment purchases, bus purchases, etc.. These projects and their respective allocations are also identified separately in the list of capital outlay projects.

3) Transfers to general fund for maintenance and equipment.

Special Revenue Fund Appropriations

Grant applications are approved by the school board prior to being submitted to the granting agency. Special revenue fund entitlement grant appropriations are reflected in the budget subject to approval by the respective funding agency.

Insurance/FEMA Special Revenue Fund-

Fund established to account for the uses of insurance and FEMA proceeds resulting from Hurricane Charley.

Food Service Fund Appropriations

The food service department prepares its budget based on the number of projected lunches to be served at each location.

Special Project Center Appropriations

The Special Project Center budget is based on the projected service requirements for each of the Districts within the consortium.

Employees Benefits Program Appropriations

The Employees Benefits Program budget is based on the estimated cost of providing health insurance and other optional cafeteria plan coverage's.

The school district budget and parts thereof must balance. The proposed appropriations, plus transfers out and reserves cannot exceed the estimated revenues, transfers in, and balances on a fund by fund basis.
